

Conditions of the paddock

The offered paddock is located at the large car park opposite the bike park. It is only used as a caravan site. Camping is not possible. Therefore, only motor homes, caravans, transporters and vehicles with roof tents etc. are permitted there. By making an online reservation, users accept these conditions. Vehicles over 3.5 t cannot be registered online. Please contact the organiser for this.

The width of a parking space is a maximum of circa 5 metres, so that space-saving parking is necessary. Vehicles must remain in place until they leave the paddock. It is not possible to drive out and back in again.

All ways between the parking areas are escape routes and must therefore have a minimum passage width of 3.5 metres. These must be kept clear at all times.

The price is 70 euros per vehicle and one person as a basic flat rate and 10 euros per night for each additional person. There are two periods for which the paddock can be booked, firstly until Saturday, secondly until Monday. In addition, a family package can be booked. Registration is to be made via the website. The fee is to be paid via PayPal during the registration process.

During the registration process, a money-back-service is offered for a fee of 9.95 euros. This allows that in case of recognised reasons the booking can be cancelled until Wednesday, 14.05.2024 at 23:59 and the fee will be refunded.

The paddock is only for people taking part in iXS Dirt Masters competitions and their supporters. The organiser reserves the right to cancel bookings if the booking is not made by a participant.

Access to the paddock will be controlled by security and is reserved for users only. It is therefore not possible for visitors to enter the site. This is primarily for security reasons. Nevertheless, we would like to point out that valuables should not be left behind or at least not be in plain view.

On the grounds of the paddock, everyone should behave considerately and keep the noise down from 10.00 p.m. at the latest, as this is a sporting event and other participants would like to sleep peacefully.

Due to the fact that this is a festival in a confined space and that there are also offers such as evening events, we would like to point out that there may well be disturbances with regard to a good night's sleep. We recommend that you bring earplugs.

It is forbidden to light fires on the entire grounds. Please follow the instructions of the security.

Rubbish must be disposed of in the container provided. Please bring your own rubbish bags and do not leave any rubbish lying around during the entire time (also because of animal welfare).

Showers and toilets will be provided in the area of the paddock entrance. These must be kept clean. No bicycles or clothes may be washed. Electricity will not be provided.

It is not possible to camp next to the parking areas, violations will be treated as "forbidden camping" according to the public order office.
