

## HEALTH & SAFETY EXPECTATIONS | 5 STEPS TO SAFE COMPETITION

There are some key health and safety protocols that have been developed to prevent transmission of COVID-19 amongst participants in Crankworx Innsbruck 2020, as well as to the community in Innsbruck. All participants will be expected to strictly adhere to these in order to help keep the event safe.

These protocols are listed below. We will send you a more in-depth version once you are registered, and closer to the event.

In addition, there are some things you'll need to be mindful of before booking travel and planning your trip:

- Please check the Austrian travel advisories as well as your home country's travel advisories to confirm that you are permitted to travel to and enter Austria.
  - <https://www.austria.info/en/service-and-facts/coronavirus-information>
  - Please note, rules around travel are subject to change. Please check for travel advisories often, and be mindful that we cannot guarantee your entry into the event if there are changes to the regulations around who can/cannot enter Austria, who is allowed access to the venue, etc.
- No additional guests will be permitted on site, this includes partners, plus-ones and parents.
- Media will be extremely limited to a select group of invited media. If you normally travel with a filmer or photographer, they will likely not be permitted on site. More details to come.

Crankworx Innsbruck is following these five steps to safe competition:

1. Closed Events
  - a. Crankworx Innsbruck events are made-for-TV, with spectators encouraged to tune in from home: Get stoked. Be safe. Watch #CrankworxFromHome.
2. Limited Numbers
  - a. Access to the venue will be limited to approved and accredited athletes and individuals, along with minimizing the number of staff, suppliers and volunteers on-site.
3. Health Rules and Regulations
  - a. "Above and beyond" approach to rules in place by local health authorities.
  - b. Instruction of all participants on current COVID-19 regulations and Crankworx Innsbruck's COVID-19 guidelines.
  - c. Accreditation and access to event site contingent on completion of a health and wellness screening and temperature check.
  - d. Self-symptom checking daily throughout the event.
4. Minimized Interactions
  - a. All participants will be divided into pre-arranged groups ("bubbles"), with key health and safety protocols in place when these groups intermingle.
5. Distancing, Disinfecting and Masks
  - a. Strict protocols in place to protect all individuals on site.
